About the Program

Welcome to the MSc in International Sport Science and Intelligent Health, an exceptional program offered by the Department of Exercise and Health Science at NTUNHS. Our program, situated within the prestigious College of Human Development and Health, is designed to equip students with cutting-edge expertise in Sport Health Science and Intelligent Health Technology.

Why Choose This Program?

In a world where health and technology intersect like never before, this program offers a unique blend of theory and practice. Students gain skills in diverse fields such as:

- ◆ Applied Exercise Physiology
- ◆ Training Science for Special Populations
- ◆ Smart Sports Technology
- ◆ Rehabilitation and Assistive Device Design

Our curriculum prepares students to address global challenges such as aging populations and the growing need for preventive healthcare through personalized exercise and health technologies.

Key Features:

- **Interdisciplinary Focus:** Leverage insights from exercise physiology, biomechanics, health promotion, and intelligent health technology.
- **Global Opportunities:** Participate in international collaborations and internships with leading universities in New Zealand, Japan, and Southeast Asia.
- **State-of-the-Art Facilities:** Access advanced labs and equipment designed to foster hands-on learning and innovative research.
- **Cultural Exchange:** Collaborate with peers from around the globe in a diverse, inclusive academic environment.

Career Prospects:

Graduates from this program are prepared to excel in a variety of roles, including:

Sport and Health Science Researchers

Intelligent Health Technology Innovators

Rehabilitation Specialists

Health Promotion Consultants

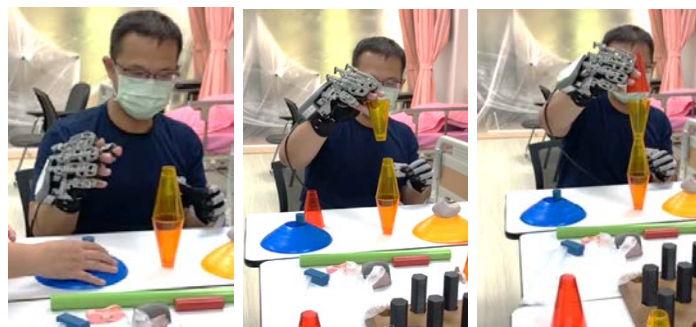

With the MSc in International Sport Science and Intelligent Health, you won't just gain a degree—you'll position yourself as a leader in the ever-evolving world of sport and health science.

Take the first step toward shaping the future of health and wellness. Join us at NTUNHS today!

Qualification

1. Hold a bachelor's or associate degree in fields related to sport and exercise or health sciences from foreign universities and colleges recognized by the Ministry of Education, R.O.C. (Taiwan).
2. Must not hold overseas Chinese status and must not have held an R.O.C. (Taiwan) passport for at least the past eight years.

Note: Applicants from non-English speaking countries, or those who completed their bachelor's degree at a non-English speaking institution, are required to provide evidence of English proficiency.
